
DbSchema License Key

February 2, 2022 - DbSchema license key is built for large schemas and complex databases. Create meaningful relationships between tables and document the schema. Place the C# code in the DbSchema.cs and DbSchema.h files, and store it in the application's resources. DbSchema.cs and DbSchema.h should be in header files in your project. SQL queries must be run in C#, not SQL Server, and must be embedded in the DbSchema.cs file. To create a view, view the DbSchema.cs file and create a view using the following keywords: `â€œ`. In this example, I have created a view that will return results for the People table.
