Ukeysoft Screen Recorder

Let's be honest, you're not going to use this to make a video tutorial of your PC's operation, right? That's what DazzlingDevelopers is designed for. Of course, if you could, you probably wouldn't need DazzlingDevelopers in the first place, as you could simply use the Windows' built-in program! But what about other purposes? This program is basically a recording program that captures your every desktop session and saves it to video, thus letting you replay your actions at any given moment. In the support section of the DazzlingDevelopers page, you can find answers to the most common questions people might have about the program. Multiple language support The Ukeysoft Screen Recorder comes with multiple language versions, allowing users to interact with the application in their preferred language. In addition to the main functionality, the software includes an English version as well, which comes with all the English language tools, settings and options. Language options are found inside the program itself, in the Options section, where you're greeted by the four key languages mentioned above, namely English, German, French and Spanish, along with the option to enable a Chinese language version.
