I have been trying to add visual studio to my machine with SQL Server as my project base. My problem is that I have been unable to connect to my SQL server from visual studio. I am using Windows 2008, SQL Server 2008 and Visual Studio 2008. I have configured my ODBC connections and even tested it with a MSSQL server as a local host but I still get an error message that says: Unable to connect to server. A
